

LIGNACITE

Concrete Masonry Products

SUSTAINABLE MASONRY STRATEGY

Lignacite Ltd agrees to contribute to the fulfilment of its vision to be recognised the innovative leader in sustainable masonry construction; to support its four strategic objectives and to deliver the six commitments, as summarised here.

Lignacite Ltd agrees to implement these fully and will communicate the strategy both internally and externally to ensure the commitments become a reality.

Lignacite will facilitate the collection of performance data from its operations, establish performance benchmarks, set performance targets, take part in periodic target setting and reviews at Company level, and commit to a published annual performance report to stakeholders.

Vision

Lignacite Ltd will be recognised as an innovative leader in sustainable masonry construction, by taking a dynamic role in delivering a sustainable built environment in a manner that is profitable, socially responsible and functions within safe environmental limits.

Allan Eastwood
(Managing Director)

Strategic Objectives

1. To continue to bring to the market innovative masonry products which satisfy customer requirements, focusing on the visual appeal and performance of masonry.
2. To maintain a high proportion of recycled and secondary materials as an alternative to primary materials in its products. This will be achieved by further investment in research and development and a strong commitment to its supply chain to bring such products to the market.
3. To develop masonry solutions which meet technical requirements and are manufactured based on responsible sourcing principles in accordance with BES 6001, thereby enabling our clients to achieve sustainable construction.
4. Communicate our progress and solutions.

Commitments

1. To publish an annual Sustainability Performance Report to stakeholders. The first report was published in 2012.
2. To set targets and objectives for performance improvement against the principle sustainability aspects described in BES 6001, and to review targets and objectives on an annual basis.
3. To provide clients with industry data for product environmental performance, e.g. Environmental Product Declarations.
4. To develop sustainable masonry solutions.
5. To maintain an externally certified management system for responsible sourcing activities in accordance with BES 6001.
6. To continuously improve our carbon footprint and strive to be the manufacturer with the lowest carbon footprint in class.
